SEMA IN MONTH

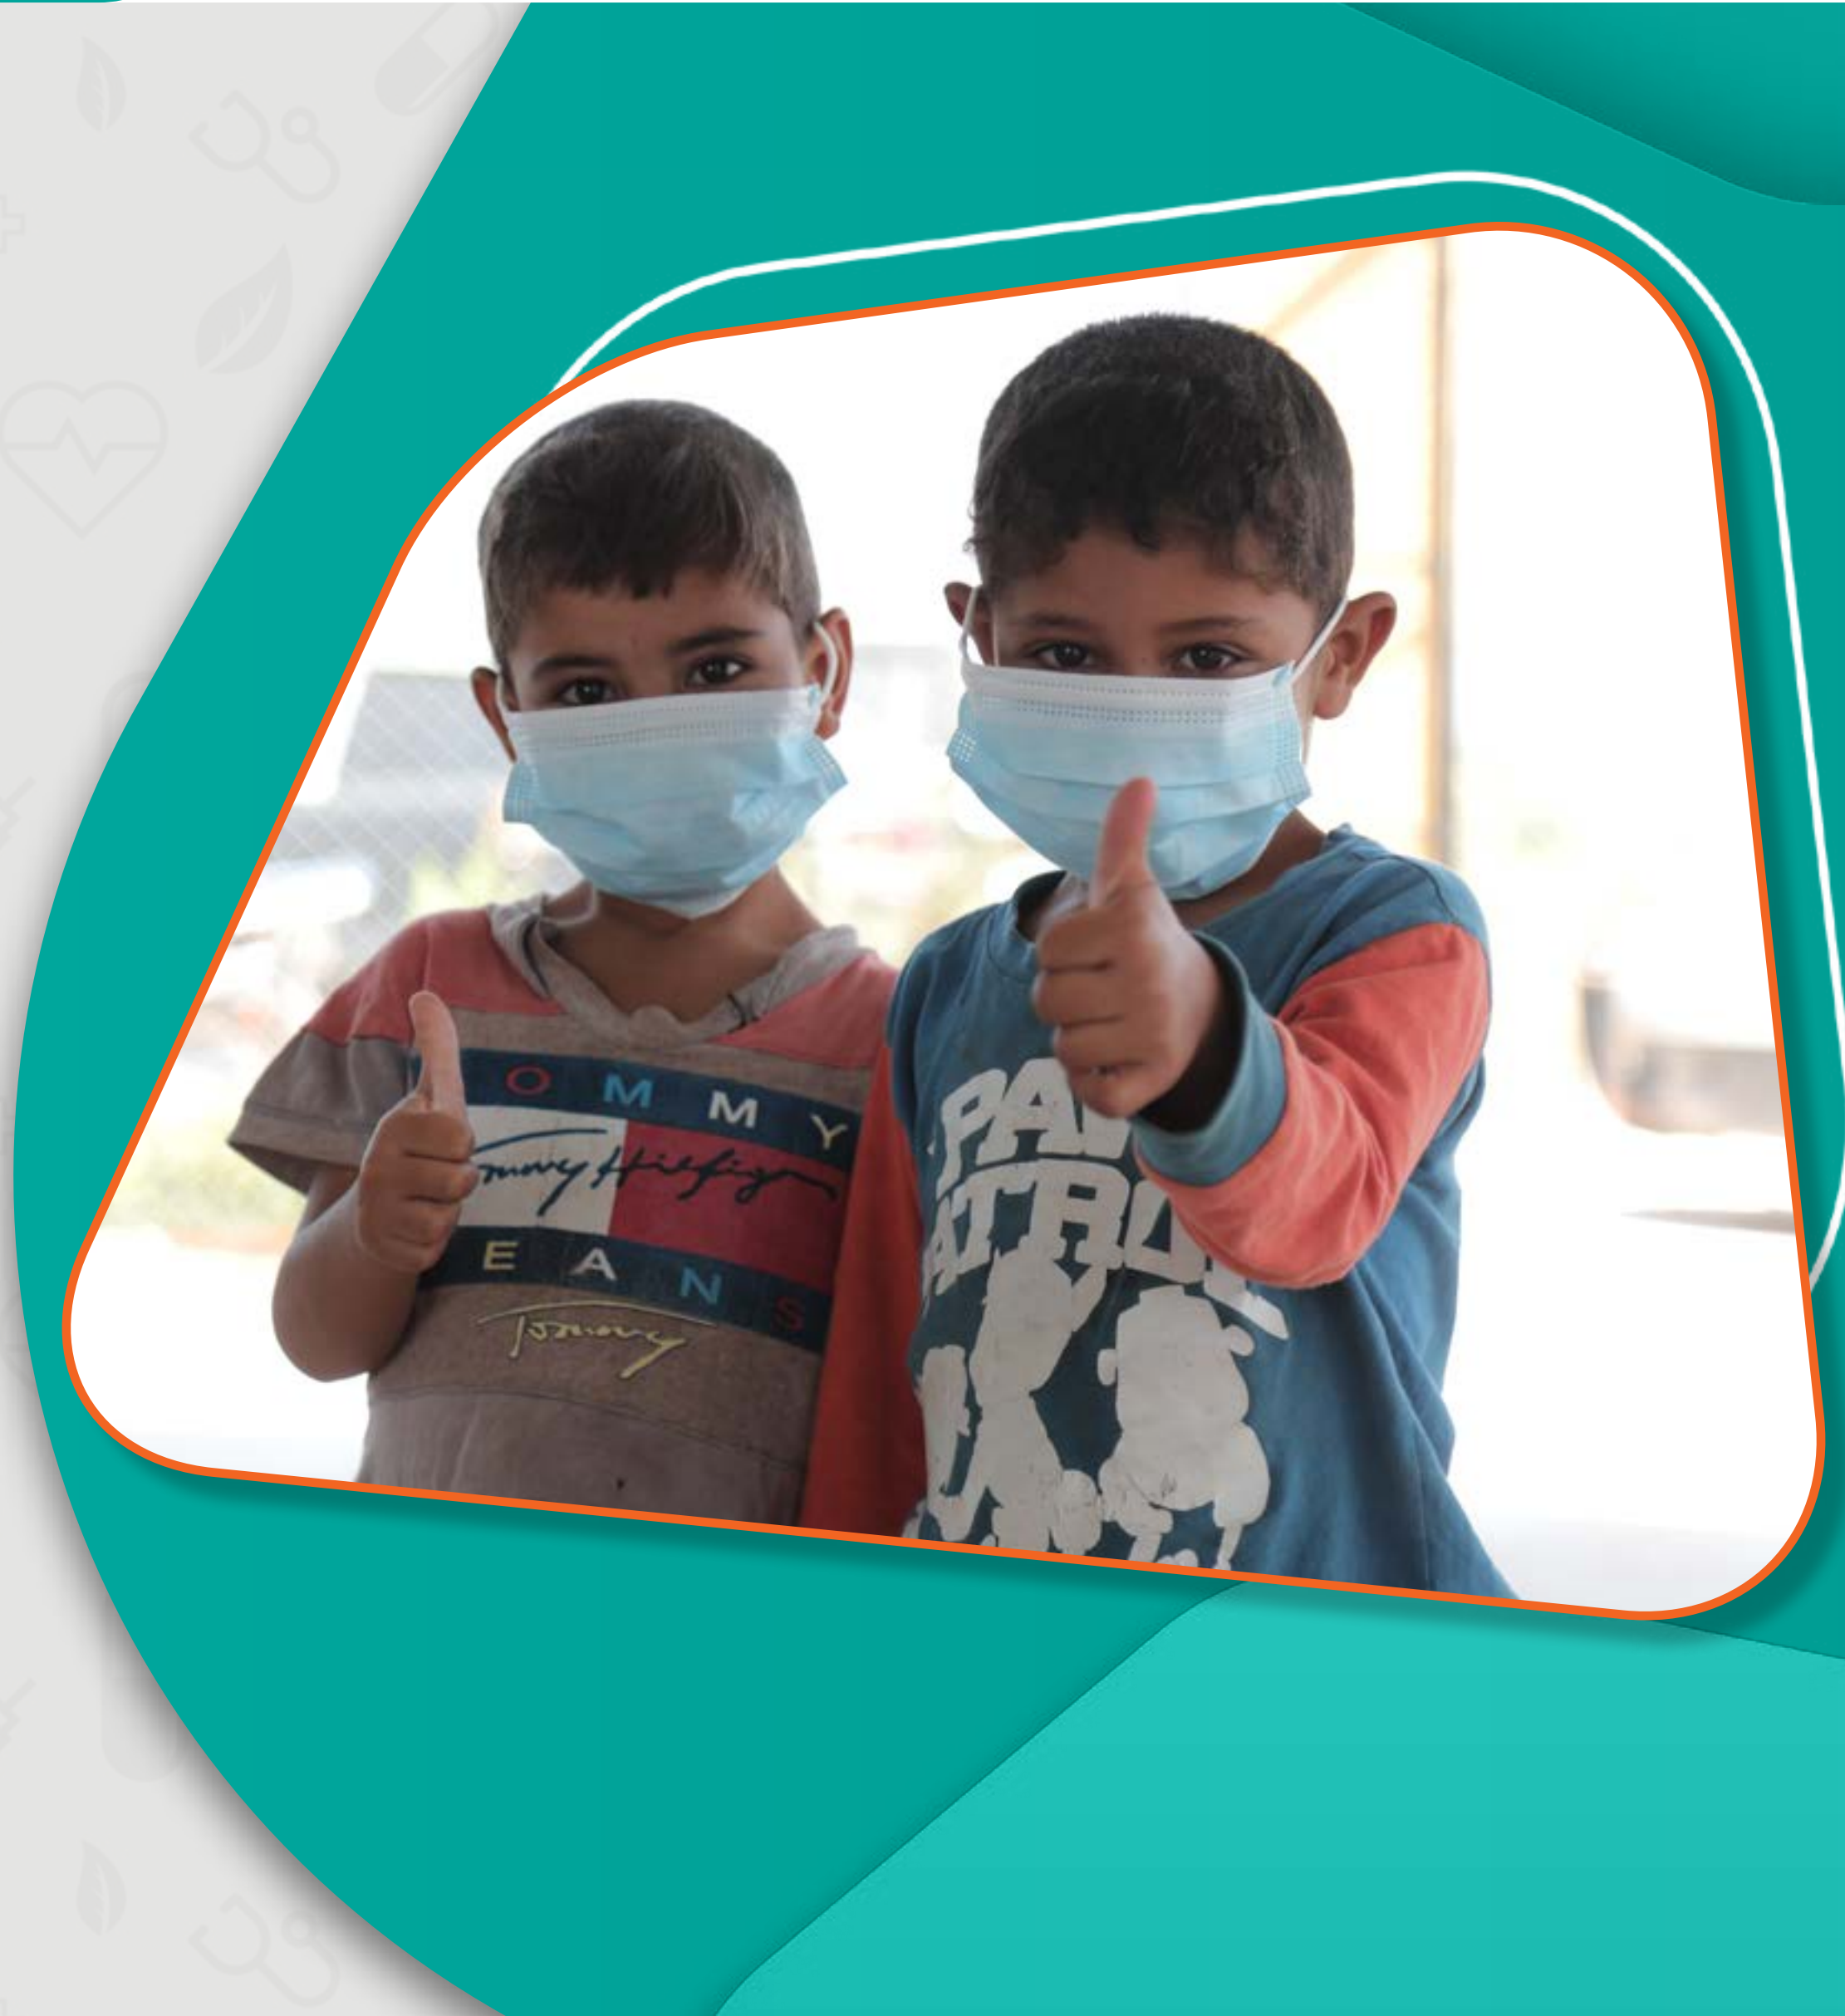

APRIL

Introduction

The Syrian Medical Association for Syrian Expatriates (SEMA): It is a humanitarian, medical relief, non-profit, national organization; it has no association with political systems, parties or ideologies. All its humanitarian relief work shall be provided to all without regard to race, sex, color, religion, sect, denomination or language.

Monthly Report: Sema in a month

The monthly newsletter aims to highlight the achievements and projects sponsored by the Association and provide a clear idea for the followers of the Association about the amount work in these projects through various statistics, in addition to cover the events in which the Association had participated with detailed reports on the activities of the Department of Training and Education and courses that With a brief description of the number of medical devices that the Engineering Office has repaired or maintained.

The Turkish Red Crescent has officially received 3,625 humanitarian aid boxes from SEMA organization.

As part of Sema's response to the earthquake victims in southern Turkey, our field teams, in partnership with HelpAge International and in coordination with the local Turkish authorities, have delivered 3,625 humanitarian aid kits to the Turkish Red Crescent.

These kits are intended to provide relief to those affected by the earthquake in the Islahiye and Nordag regions of Gaziantep, as well as the Hatay province.

This emergency humanitarian aid includes food kits and hygiene kits, and it is being provided as part of the urgent response of the Syrian Expatriates Medical Association (SEMA) to support those affected by the earthquake disaster in the southern region of Turkey.

A cutting-edge device for non-surgical extraction of kidney stones is now accessible at the specialized surgical hospital in Idlib.

The administration of the specialized surgical hospital in Idlib has officially announced the availability of the PCNL device within the kidney clinic.

Commencing from the present month of April, patients diagnosed with kidney stones can undergo a straightforward surgical procedure utilizing the PCNL device to extract stones through the skin, regardless of their size or quantity.

For comprehensive information regarding this advanced device and its mechanism, kindly refer to the provided link.

Because “Eid Joy” is something every child deserves... Sema continues her tradition every Eid.

Despite the challenges and difficulties our children have faced since birth, Eid provides them with an opportunity to forget their fears and embrace the spirit of joy and celebration, accompanied by Sema's team in Jenderes camp, which was established by Sima after the earthquake.

Witness these delightful moments with our little ones during this Eid.
